THE WORLD OF FARMING IS CHANGING. WILL YOU BE READY?

Every year, a growing world demands more food, more fibre, more fuel and you get to produce it with less land, less resources and a greater focus on sustainability. Case IH is there to help you be ready with people who work alongside you to understand your operation and your needs. We’re there with equipment designed to help you get more done and do it more efficiently. For example, livestock producers, row-crop farmers and mixed-farm enterprises can count on the Maxxum tractors to be ready for the seasons ahead.
PERFORMANCE, VERSATILITY, COMFORT. A TRACTOR LIKE THIS COMES ONCE IN A GENERATION.

Maxxum tractors have joined the ranks of Case IH high-horsepower tractors powered by FPT engines with proven technology that provides increased performance and fuel efficiency. Maxxum tractors are designed to handle the multiple tasks of livestock operations, row-crop applications and roadside mowing. In addition to enhanced cab visibility and thoughtfully designed controls and comfort.

POWER AND PRODUCTIVITY.

Maxxum tractors are designed to provide more horsepower when you need it for rough spots and tough jobs, and better engine performance and fuel efficiency. Outstanding horsepower in its class.

INTUITIVE INNOVATION.

Nobody understands the challenges you face better than you do. That’s why Case IH design engineers work with real tractor users to innovate the new ideas we include in every tractor we make. So when the Maxxum series includes features like the exclusive Turn Assist option to improve loader productivity, or a convenient roof hatch for better visibility, it’s because we listened to “the people” who really matter: the ones in the driver’s seat.

MAXIMUM UPTIME.

You want to spend your time working with your tractor, not on it. Case IH design technology provides long-term durability and outstanding fuel efficiency for tractors that start out strong and keep running strong over the long haul. Ground-level maintenance access makes checking fluid and filters a snap, while 600-hour oil and filter change intervals keep you up and running more hours per season, season after season.

OPERATOR ENVIRONMENT.

You and your tractor put in long, hard days together. Operator comfort is no luxury. It’s a productivity must. So the Maxxum series offers better comfort, better visibility and better control to tackle the long days and the big jobs—fly by. And Case IH cab suspension provides a smooth, comfortable ride in the field or out on the road.
A BETTER DAY’S WORK STARTS WITH A BETTER WORKPLACE.

Operator comfort isn’t about making the workday easy. It’s all about making every day as productive as possible, even when it starts before sunrise or stretches past sunset. The Maxxum operator environment is designed to make the long hours, and the tough tasks, fly by. The Maxxum Series provides unmatched visibility, and industry-leading cab suspension. All in all, the Case IH Maxxum cab provides the comfort and ease of operation needed to maximize in-field performance during long workdays.

OPERATOR ENVIRONMENT

PREMIUM AIR SEAT.
The air seat offers the latest in comfort technologies. It is equipped with a low-frequency suspension system, a retractable seat belt, an adjustable armrest and backrest, lumbar support, and base cushion adjustment.

BETTER VISIBILITY.
The Maxxum SurroundVision cab offers unobstructed vision in all directions, including a high-visibility roof panel with optional opening window. The narrow, sloping hood is closely formed around the engine for excellent visibility of front-mounted implements.

CAB SUSPENSION.
Reducing the shock loads to the operator by 25 percent, the Maxxum cab suspension offers superior operator comfort, both on the road and in the field. Designed with durable components, this continuously active, adjustable system offers five settings and a full four inches of cab travel.
POWER AND PERFORMANCE MADE SIMPLE.

What could be simpler? Select your horsepower, then pick your configuration. The new Case IH Maxxum series tractors are available in two configurations: with three horsepower offerings, from 112 – 141 (92 – 121 PTO) engine horsepower.

POWER WHEN YOU NEED IT.

More work, less service time with 600 hour service intervals. The Case IH FPT engines keep working harder and longer. Designed by FPT, the Case IH engine delivers power and efficiency.

PERFORMANCE DETAILS... THAT MAKE THE DIFFERENCE.

Inlet and exhaust manifolds are positioned on opposite sides of the Maxxum cross-flow cylinder head, allowing the use of large inlet and exhaust ports for optimum air/fuel mixing and combustion. And all models feature cooling with a 9-blade viscous fan, which runs quieter than conventional fixed fans.

BIG TANKS FOR LONG DAYS.

The high-capacity fuel tanks permit longer work periods before refueling. A wide filler opening allows easy refilling from ground level, with no spilling of fuel, and a water in fuel sensor and tank guard are standard equipment on all Maxxum models. Maxxum 4-cylinder models feature 175 L capacity, while the Maxxum 6-cylinder model tank capacity is 250 L.

SAVING YOU MONEY.

Fuel efficiency and reliability are hallmarks of the proven, Tier III engine in Case IH Maxxum models. This mechanical 2-valve per cylinder engine includes minimal electronics, for no nonsense control and horsepower without the frills. Easy to maintain and service, this workhorse will prove itself for years in the field.

LIVESTOCK? ROW CROP? ROADSIDE MOWING?
THERE’S A MAXXUM MODEL FOR YOU.

The Case IH Maxxum series offers you state-of-the-art features to help deliver better productivity and greater profitability. These tractors are designed to handle the multiple tasks of livestock operations, row-crop applications and roadside mowing with enhanced cab visibility plus power, fuel economy, ease of use and solid performance.

MAXXUM FAMILY
OF TRACTORS

PICK THE MODEL THAT WORKS FOR YOU.
The variety of Maxxum series models makes it easy to choose the tractor that’s best for your needs. First, pick your engine from 92 – 112 PTO HP. Then, choose your specification based on your need. Whichever you choose, you’ll get performance, productivity, and long, reliable service life.

A HARD-WORKING, VERSATILE WORKHORSE.
Nothing beats Case IH Maxxum tractors for flexibility, maneuverability and serviceability. Here’s the ideal tractor for the midsize farm, loader applications, haymaking, mowing, mixed farming operations with crops and livestock, and more. Get all the industry-leading features you want—and nothing you don’t—in this powerful, multipurpose machine.

THE MAXXUM EFFICIENCY PACKAGE FOR ENHANCED VERSATILITY AND MANOEUVRABILITY.

Maxxum transmissions give you the level of automation you need to optimise your productivity - both in the field and on the road. A fully integrated electronically-controlled PTO system on both models makes operating machinery safe and efficient.

**Transmission and PTO Gear**

- 24X24 Synchro with two-speed Hi/Lo Powershift (Optional)
- 16X16 Semi-Powershift with AutoShif (Standard)
- Creeper option available on 16X16 (Optional)
- 17X16 Semi-Powershift with 30kph AutoField and AutoRoad modes (Optional)
- 17X16 Semi-Powershift 40 kph ECO with AutoField and AutoRoad modes (Optional)

CVT also available – See Maxxum CVT Brochure

**Auto Road Mode.**

- Gear 9-16
- 16-15-14
- 14-15-16

**Auto Field Mode.**

- Gear 10
- 10-9-8
- 8-9-10

**Auto Shift.**

AutoField and AutoRoad modes optimise the Semi-Powershift transmission and provide automatic shifting based on load for increased productivity and fuel savings. Gear shifts are smooth because they are based on load. Small loads and shifts will be slow and large and they will be fast.

**Achieve more in a single pass with a front hitch**

Boost productivity even further by operating front and rear end implement combinations simultaneously. Maxxum tractors are available with Cat II front linkages and a 1000rpm PTO fully integrated into the tractor with a maximum lift capacity of 3700kg.

**Eco Gear saves you money at 40 KPH.**

Maintaining 40 kph at reduced engine rpm of just 1900 rpm (instead of 2200 rpm in 16th gear) means less wear to the engine and fuel savings of 10%. That represents a substantial reduction in your fuel bill if your tractor is being used for transport work as well as in the field.

**Highly efficient PTO.**

The rear PTO on all Maxxum tractors features a 540/750/1000 rpm system driven directly from the engine flywheel for maximum efficiency. A soft start system gradually increases output torque during start-up to reduce the strain on machinery and drivelines. A 1000 rpm front PTO is also available for extra versatility. Easily-accessible PTO switches are located on the tractor fenders next to the hitch buttons so machines can be operated from the ground.
MAXIMUM POWER TO THE GROUND.
Maxxum tractors give you power and the capability to control it with ease. In addition to the traction management system, your Maxxum tractor is equipped with a range of features to improve steering, braking and safety both on the road and around the yard.

PROVEN DRIVELINE SPECIFICATIONS.
Faster and smoother operation is possible without compromising safety or stressing the operator. Combined with the tractor’s favourable performance/weight ratio, these features are designed to deliver maximum traction and minimum compaction.

POWERFUL ALL-WHEEL BRAKING.
Heavy duty, maintenance-free, oil immersed disc brakes. Hydraulic and air brake systems for trailers are also available.

SUSPENDED FRONT AXLE.
Suspended front axle option provides a more comfortable ride, increased traction and enhanced fuel efficiency.

IMPRESSIVE TURNING CIRCLE.
Due to their compact engine dimensions Maxxum tractors have an extremely tight turning radius. Dynamic Fenders, fitted, give these tractors an additional 30% in steering angle for really superb handling characteristics.
SPEND YOUR TIME WORKING WITH YOUR TRACTOR, NOT ON IT.

Long as they may be, workdays are too short to spend any more time than you have to tending to your equipment. Getting the most out of yourself, and your tractor, means spending your time getting the job done. So Maxxum tractors are designed for the long hours you put in, offering more uptime and higher productivity. Long story short, you get long days, long service intervals, long service life.

MAXIMUM UPTIME

GET ROLLING QUICKER EVERY DAY.

Maxxum series tractors are designed to make maintenance quick and easy by offering excellent service access. For instance, for routine maintenance, there’s no need to remove the service side shields. In fact, you can check the oil without even raising the hood.

IT’S ALL WITHIN REACH.

In the spirit of keeping things simple, radiators and coolers fold out for convenient access. That means the cleaning process is quick and easy.

GO LONGER BETWEEN OIL CHANGES.

Smart engine design offers more than power and economy—it also provides longer service intervals. Maxxum tractor engine oil and filter change intervals are both 600 hours. The oil filter is easily replaced from the left side of the tractor.

A LOW-MAINTENANCE FUEL SYSTEM.

Maxxum tractors feature a premium fuel filtration system as well as a standard water sensor that prevents damage to the fuel system. Like the oil change, the fuel filter change service interval is 600 hours, so it’s easy and convenient to schedule. It adds up to maximum fuel system protection for increased reliability and long component life.
LOADERS AND ATTACHMENTS

Case IH Maxxum tractors are available loader-ready and designed to operate as a system with the three models available. And to make sure you get the productive loader work out of your Maxxum, there’s a wide range of buckets and tools. That way you can easily select the perfect tool or attachment, no matter what you need to get done.

THREE LOADERS, ONE STANDARD OF EXCELLENCE.

Case IH offers three loader models that fit the Maxxum range, all featuring fast, easy mounting and rugged, durable construction. And they all give you the option of mechanical leveling as well as a wide range of buckets and attachments.

A BIG TOOLKIT TO CHOOSE FROM.

Like the man says, if you can’t find it here, you probably don’t need it. The Case IH Maxxum series offers more than 20 tools and attachments, including:

- Heavy-duty and high-volume buckets
- Forks
- Grapples
- Bale spikes
- Grips
- Lifters
- Cutters
MORE THAN TRACTORS TO WORK FOR YOU: WE’VE GOT PEOPLE TO WORK WITH YOU.

Case IH puts more professionals in the field than anybody in the industry. We’ve got a network of dealers with the expertise to equip you, advise you and support you every way they can. There are parts and service technicians ready to assist you before, during and after the sale. CNH Capital will work with you to customize financing solutions to identify what works best for your situation. It’s an integrated system, with equipment, maximum service and financing options in one package— all focused on getting you ready for whatever comes next for you and your operation.

SERVICE AND SUPPORT

DEALERS WHO KNOW YOUR REGION— AND YOUR OPERATION.

Our dealers are the backbone of the Case IH network. They’re the ones who understand your part of the country and your operation. They’re the ones ready to help you find the right tractor, with the best options, along with the tools and attachments to fit the demands of your operation.

PARTS AND SERVICE TO KEEP YOU UP AND RUNNING.

Find a full line of Case IH parts and components at your local dealer—plus full-service maintenance programs and industry-leading warranties. Here you’ll find expertise applied by skilled, factory-trained service professionals committed to providing you maximum uptime, season after season.

OVER 50 YEARS OF FINANCING SOLUTIONS.

CNH Capital’s extensive experience in the agriculture industry has created a deep understanding of your unique needs. Competitive equipment financing with flexible payments can be timed to your cash flow. Or, conserve capital and reduce upfront payments with operating and finance leases. For other needs, choose credit cards specific to the agricultural industry, or let us help you finance crop input products or real estate. CNH Capital helps you find financing options that fit the way you farm.
## MODELS – MAXXUM

### MAXXUM 110
- **Engine**
  - Turbo-intercooler / Stage IIIA
- **Aspiration / Emission level**
  - Turbo intercooler / Stage 3A
- **Capacity / No. of cylinders**
  - 4485 / 4
- **Rated engine power**
  - ECE R120: 82 / 112
- **Rated engine speed (rpm)**
  - 2200
- **Max. torque at engine rpm (Nm)**
  - 510 / 1400
- **Fuel tank capacity (l)**
  - 176

### MAXXUM 125
- **Engine**
  - Turbo-intercooler / Stage IIIA
- **Aspiration / Emission level**
  - Turbo intercooler / Stage 3A
- **Capacity / No. of cylinders**
  - 6728 / 6
- **Rated engine power**
  - ECE R120: 93 / 126
- **Rated engine speed (rpm)**
  - 2200
- **Max. torque at engine rpm (Nm)**
  - 555 / 1250
- **Fuel tank capacity (l)**
  - 250

### MAXXUM 140
- **Engine**
  - Turbo-intercooler / Stage IIIA
- **Aspiration / Emission level**
  - Turbo intercooler / Stage 3A
- **Capacity / No. of cylinders**
  - 6728 / 6
- **Rated engine power**
  - ECE R120: 104 / 141
- **Rated engine speed (rpm)**
  - 2200
- **Max. torque at engine rpm (Nm)**
  - 625 / 1250
- **Fuel tank capacity (l)**
  - 250

## TRANSMISSION

### Powershift, Powershuttle
- **Type**
  - Powershift, Powershuttle
- **Number of speeds / with creeper (FxR)**
  - 16 x 16 / 32 x 32
- **Number of speeds Economy (FxR)**
  - 12 x 12 / 24 x 24
- **Max. torque rise (%)**
  - 43

## TRANSMISSION

### Four-wheel drive engagement
- **Type**
  - Electro-hydraulic with Auto 4WD and Auto Diff lock*
- **Steering angle (°) / Optimum turning radius (m)**
  - 55 / 4.04

## POWER TAKE OFF
- **Type**
  - Electro-hydraulic shiftable with progressive PTO control
- **Engine speeds (rpm)**
  - 1969 / 1546 / 2120
- **Front PTO speed / Engine speed (rpm)**
  - 1000 / 2120

## HYDRAULIC SYSTEM
- **Max. pump flow and system type main hydraulic**
  - 80 l/min with fixed displacement or 113 l/min with pressure flow compensation/loss
- **Control**
  - EHC (electronic hitch control) with hitch ride control
- **Maximum lift capacity at ball ends with arms horizontal (kg)**
  - 7864
- **Remote valve configuration**
  - up to 4 rear remotes, 2 power beyond, 2 mid-mounts (mechanical)
- **Front hitch max. lift capacity (kg)**
  - 3700
